

SAVE MONEY ON DIAGNOSTIC LABS USE QUEST DIAGNOSTICS

Hospital Based Labs are substantially more expensive than labs completed by Quest Diagnostics.

How It Works:

- Obtain the order for lab(s) from your physician
- Write on the order, "Labs to Quest, Due to Insurance"
- When registering, provide your insurance card and inform the person working at the registration desk that you want the labs sent to Quest Diagnostics
- When the phlebotomist is preparing to collect the sample, let him/her know it is to go to Quest.
- Quest picks up specimens at Evangelical Community Hospital every day. The labs will be completed quickly and the ordering provider will receive the results directly from Quest.
- Patients utilizing Quest can set up an account through Quest to access lab results as soon as they are available:
<https://myquest.questdiagnostics.com/web/home>

Deductibles:

- If labs are applied to your deductible, you will likely save a substantial amount of money by using Quest versus a hospital-owned lab.

Evangelical Community Hospital is a Collection Site for Quest Diagnostics:

- You must go to the main hospital – labs cannot be collected in a physician's office
- **Walk-In Lab Hours: M-F: 7a – 7p
Sat: 7a – 11:30a**
