

SVDI SUSQUEHANNA VALLEY DIAGNOSTIC IMAGING

SVDI is a high quality, low-cost advanced imaging center located in Bloomsburg, PA. The cost here is often up to 75% less expensive than going to a hospital owned facility for the same service.

How It Works:

If your doctor says that you need to have an imaging procedure done, let him/her know that you prefer to have it done at SVDI. The doctor's office can send the order directly to SVDI.

It's your plan. You decide where to go.

From SVDI's Website:

"Fully accredited by the American College of Radiology Susquehanna Valley Diagnostic Imaging is staffed with highly trained and certified technicians utilizing state of the art equipment. We can always obtain prior studies for comparison and provide same day reports to your ordering physician. No matter where you live, remember it's your choice. Choose Susquehanna Valley Diagnostic Imaging it's worth the trip."

SVDI Services:

- MRI
- CT Scan
- CT Lung Cancer Screening
- Ultrasound
- Digital Mammogram
- Dexa
- X-Ray
